

JEREMIAH COMEDA

Full-Stack Developer

Tanza, Cavite • jebeworkin@gmail.com • 09254952909 • linkedin.com/in/jeremiahcomeda

Full-Stack Developer with 3+ years of experience building scalable web applications with React, Next.js, TypeScript, and Node.js. Proven track record delivering robust APIs, leading system design, and mentoring developers across high-impact projects.

TECHNICAL SKILLS

Frontend	React · TypeScript · JavaScript · HTML/CSS · Tailwind · Next.js
Backend	Node.js · Express.js · NestJS · Rust/Axum · Java · Spring Boot
Database	PostgreSQL · MySQL · OracleSQL · TimescaleDB · TypeORM · Supabase
AI Tools	Claude Code · GitHub Copilot · Prompt Engineering
DevOps/Tools	Docker · Git · GitHub · Postman · Jest · SonarQube

PROFESSIONAL EXPERIENCE

Backend Developer • SoluxionLab Inc. Mar 2026 – Jul 2026

Unifyr (Manufacturing Execution System)

- Designed and built 30+ RESTful API endpoints for an inventory and supply chain platform using NestJS, TypeORM, and PostgreSQL, owning API design and data modeling end-to-end.
- Authored complete OpenAPI (Swagger) documentation, enabling frontend teams to integrate independently and reducing cross-team rework.

Controtek SitePortal (ERP/CRM)

- Owned the full-stack CRM module (Next.js/TypeScript + Rust/Axum) — 46 REST endpoints, 7-stage opportunity pipeline with RBAC, weighted forecasting, and 6 analytics dashboards over Supabase (PostgreSQL/TimescaleDB).
- Selected and integrated third-party services (Resend, AbstractAPI, Semaphore SMS) and designed the auth model — JWT/HttpOnly sessions, Argon2-hashed OTPs, rate limiting, and audit logging.
- Led system design: containerized the multi-service stack with Docker Compose, managed schema migrations, mentored junior developers, and drove an AI-assisted development workflow — leveraging GitHub Copilot and Claude Code intensively for code generation, refactoring, and code review.

Software Developer • Advanced World Solutions (AWS) May 2023 – Mar 2026

APAMAN (Property Management System)

Senior Assistant Software Developer Jan 2026 – Mar 2026

- Improved performance of critical React/TypeScript modules, reducing page load times by ~70% through state management optimization and API improvements.
- Led deployment activities across dev and staging environments; mentored junior developers through code reviews and technical coaching.

Assistant Software Developer Jan 2025 – Jan 2026

- Delivered end-to-end features for the desktop-to-web migration; integrated Axios for API calls and Zustand for state management.
- Reduced defects in vital components through systematic debugging and Jest testing.

Junior Software Developer May 2023 – Jan 2025

- Built responsive UIs with React/TypeScript and Tailwind CSS; developed RESTful APIs using Node.js and Express.js.
- Implemented database operations with OracleSQL, MySQL, and PL/SQL; monitored code quality using SonarQube.

CERTIFICATIONS

- JSE – Certified Entry-Level JavaScript Programmer — OpenEDG (Jan 2025)
- JavaScript Algorithms and Data Structures — freeCodeCamp (Oct 2025)
- Full-Stack Development — Zuiitt Coding Bootcamp (May 2023)

EDUCATION

B.S. Aeronautical Engineering – Philippine State College of Aeronautics 2018 – 2022
Intensive Full-Stack Bootcamp – Zuiitt Coding Bootcamp Mar – Apr 2023
